

CARLOS DAVID TAMAYO MONTAÑEZ

Quebec, Canadá | +1 8192389673 | carldavid947@gmail.com | [LinkedIn](#) / [GitHub](#)

PROFESSIONAL SUMMARY

AI Developer with a background in Mechatronics Engineering and hands-on experience with FANUC and KUKA industrial robotics in Quebec. Proven track record in backend development with Java Spring Boot, REST APIs, SQL, and AWS Lambda. Specialized in technical support for telematics and satellite fleet monitoring platforms. IBM-certified AI Developer with expertise in Generative AI, LLMs, Machine Learning, and Deep Learning. Projects in Multi-Agent Orchestration, Computer Vision, Voice Assistants, and RAG systems. Legally authorized to work in Canada. Available immediately.

TECHNICAL SKILLS

- **AI/ML:** Generative AI, LLM, Neural Networks, Deep Learning, Machine Learning, TensorFlow, PyTorch, Pandas, NumPy, Scikit-learn, NLP, LangChain, OpenAI API
- **Development:** Python, Java, C++, JavaScript, Go, HTML, CSS, Spring Boot, REST API, microservices
- **Databases:** MySQL, PostgreSQL, SQLite, MongoDB, Power BI
- **Cloud/DevOps:** AWS Lambda, API Gateway, serverless, Git, GitHub, CI/CD, Docker
- **Robotics / Control:** FANUC, KUKA, Universal Robots UR5, Festo Robotino, MATLAB, Industry 4.0 / CoDeSys, IEC 61131-3 Languages (LD, ST, FBD, SFC, IL)
- **Methodologies:** SCRUM, Agile, unit testing, Postman
- **Languages:** Spanish (Native), English (Intermediate), French (Basic-Conversational)

PROFESSIONAL EXPERIENCE

Robotics Technician & Specialist Operator | Verbom Inc. — Quebec, Canada | 2023 – 2026

- Operation and optimization of FANUC and KUKA robotic systems for automated cutting and material handling in high-precision manufacturing
- Quality inspections ensuring dimensional, structural, and safety standards compliance
- Configuration of cutting press systems improving production stability and reducing interruptions
- Fault diagnosis and collaboration with maintenance teams to minimize downtime

Hino Connect Technical Support | Distribuidora Hino de Colombia — Bogotá | 2022 – 2023

- Technical support for telematics platform enabling real-time fleet monitoring and remote diagnostics
- Automation of administrative reporting workflows improving operational efficiency
- Management of operational databases ensuring system availability and data integrity
- Resolution of incidents related to telematics, GPS, satellite monitoring, and IoT systems

Back End Developer | Ceytauro — Bogotá, Colombia | 2017 – 2021

- Development of REST APIs with Java Spring Boot for scalable applications
- Management of SQL databases MySQL and SQLite for machine learning workflows
- Serverless deployment on AWS Lambda with API Gateway

- Application of SCRUM Agile and unit testing for quality deliverables

TECHNICAL PROJECTS

- **Multi-Agent Orchestration Platform** — Multi-agent system with routing, RAG, and response generation. Reusable modular architecture. *Python, LangChain, OpenAI API, vector databases*
- **AI Data Analyst Pipeline** — Multi-agent analysis pipeline generating insights, visualizations, and HTML reports. Includes CLI, API, CI/CD, and Docker. *Python, Pandas, NumPy, Power BI, Docker*
- **AI Coding Assistant** — Multi-agent coding assistant with AST analysis, optimization, and automatic documentation. *Python, AST, LLM, OpenAI API*
- **Face Recognition API** — Real-time face recognition API with multi-face detection, recognition, and webcam client. Clean architecture. *Python, DeepFace, ArcFace embeddings, OpenCV, FastAPI*
- **Voice Interview Assistant (FR-CA)** — Voice interview assistant in Quebec French with questions, response evaluation, and correction. *Python, Azure Speech TTS STT, NLP*
- **AI Knowledge Assistant (RAG)** — Document query system with complete RAG pipeline. Local privacy-first approach. *Python, LangChain, embeddings, vector databases*

EDUCATION

B.Sc. Mechatronics Engineering — Escuela Tecnológica Instituto Técnico Central La Salle | 2014 – 2021

Prior technical training in industrial automation and electronics at the same institution

Software Programming Technician — SENA | 2025 – Present

CERTIFICATIONS

- **AI Developer Professional Certificate** — IBM | 2025: Generative AI, LLM, Machine Learning, Deep Learning, chatbots
- **Smarter Development with AI** — Santander Open Academy | 2026: Web development, data analysis, automation with Python and Cursor
- **Festo Academy Certification** — FESTO | 2017: Pneumatics, electropneumatics, CoDeSys, Lean, Industry 4.0

ADDITIONAL INFORMATION

- Legally authorized to work in Canada (Quebec)
- Immediate availability
- Projects available for live technical demonstration
